

Chasing the Clock – How do we manage time

Name: _____

Outcome 1.3 evaluate time in their lives, and investigate ways to manage time

In this cartoon, it looks like Calvin has come up with a great idea to effectively get his homework done. Unfortunately he hasn't given himself quite enough time. For this activity, you will be working together to discover some Time Management Skills that would be helpful for other teenagers.

Part A

Try to think of some effective ways you can manage time in your life (or use Google to get you started). As a group, agree to at least 5 time management skills teens should work on to improve their busy lives.

Part B

When you have your skill list ready, you will be completing 1 of the following 3 options to show other teenagers things they can do to better manage their time:

1. Create a brochure using an app like [Quark DesignPad](#)
2. Create a poster using an app like [PosterLabs](#) or [PicCollage](#)
3. Create a series of 5 memes using an app like [Mematic](#) (One meme per skill)

As always, if you have another app or program you'd like to use please let me know before going ahead with it.

You will be graded on the content in your final product.
