

## What does it mean to be safe online?

Name: \_\_\_\_\_

### Group Activity

Outcome: 3.13 assess the benefits and risks of online technology and make healthy and responsible decisions that reduce the risk of exploitation and victimization

You'll be working together to find and create a list of the top safety tips for people who go online (probably almost everyone you know).

- You can use Google to help get your search started
- Make sure you have at least 1 tip for each of the 6 major online dangers we talked about in class. (The QR code will take you to the [screencast](#) of the lesson if you forget)

Instead of just printing a list, you'll be using your list of tips to create a game using one of the templates on the [Be a Gameshow Host](#) website.

Make sure you save the template to your school account so you don't lose your work.
